SUPERINTENDENT'S REPORT

A brief review of Candia's school enrollment seems to be in order. In 1951-52 the average daily membership was 184, in 1961-62, 303, and this year we have had a registration of 335, although our present membership is about 320. This is an average annual increase of about 12 pupils. From one year to the next this creates no great problem. In a 10 year period, however, this becomes a significant number. It would appear that our housing problems are not over and may actually be a matter for continuous study and occasional action.

Candia received this year over $40,000 in State Foundation Aid, an increase of $7,000 over last year which reduces the tax assessment. Even this increase is not sufficient to stabilize the tax rate. This legislative year promises better things for education and we hope that significant increases in the present aid program will be given, along with a few new ones. The majority of New Hampshire towns, including Candia, can use more state aid to good advantage.

I would be negligent in my duties as your superintendent if I did not mention the Interim Commission's Report on Education and possible reorganization of supervisory unions and school attendance areas. It is enough at this stage to say that Candia should, through its delegates, study any and all possibilities. Representation on a study committee does not mean approval of anything and many studies are usually necessary before any changes take place if, indeed, changes are made. We expect the Interim Commission's Report to be implemented by legislation. Candia should be vitally interested in these and related matters.

Another matter about which Candia needs to keep an open mind is that of educating its high school youth. As this is being written the matter of increased rates, contracts, etc. are being discussed with the Manchester Board. We

hope these problems may be settled to the mutual advantage of all parties. In any event, there is always an answer to a problem. Candia must be interested in co-operation or regional studies, in state laws relating thereto and any other phases concerning education.

Regardless of district organization or the size of a school, the basic success of a pupil depends on himself and his teacher. The hiring of teachers is a most difficult job requiring much wasted effort, time, and money. In fact, little else can be done some years in the spring. We will continue to try to hire the best qualified with the money we have. Candia is becoming more competitive in this respect and it is helpful.

Your co-operation, understanding, and support in the past year are appreciated.

C. MAURICE GRAY
